

Hardened Source Map

This companion PDF records the sources used in the final hardening pass. It is source discipline, not market promotion.

All real company comparisons are category comparisons only. They do not imply valuation equivalence, maturity equivalence, customer equivalence or acquisition demand.

Company	Source	Publication date	Comparison date	Limit
Datadog	https://www.datadoghq.com/observability-platform/	Official page; publication date not stated	2026-06-06	Category overlap does not imply valuation equivalence.
Splunk	https://www.splunk.com/en_us/products/observability-cloud.html	Official product page; publication date not stated	2026-06-06	Category overlap does not imply valuation equivalence.
New Relic	https://newrelic.com/products/logs/features	Official product page; publication date not stated	2026-06-06	Category overlap does not imply valuation equivalence.
Palantir	https://www.palantir.com/platforms/aip/	Official platform page; publication date not stated	2026-06-06	Category overlap does not imply valuation equivalence.
Celonis	https://www.celonis.com/platform/process-intelligence/	Official platform page; publication date not stated	2026-06-06	Category overlap does not imply valuation equivalence.

EVIDENCE TRACE

Sources: Official/public category anchors reviewed June 2026. Category and acquisition language is hypothetical; no fixed valuation, investment recommendation or buyer claim is made.

Hardened Source Map II

The remaining comparison sources cover process intelligence, data cloud, quant research and AI data infrastructure.

Company	Source	Publication date	Comparison date	Limit
Snowflake	https://www.snowflake.com/en/data-cloud/platform/	Official platform page; publication date not stated	2026-06-06	Category overlap does not imply valuation equivalence.
QuantConnect	https://www.quantconnect.com/	Official site; publication date not stated	2026-06-06	Category overlap does not imply valuation equivalence.
Scale AI	https://scale.com/data-engine	Official page; publication date not stated	2026-06-06	Category overlap does not imply valuation equivalence.

EVIDENCE TRACE

Sources: Official/public category anchors reviewed June 2026. Category and acquisition language is hypothetical; no fixed valuation, investment recommendation or buyer claim is made.

ARC SE Source Chain

The hardening pass preserves the original source chain: Founder Story, Evolution Documentary, May15 Resurrection, Hall of Legends, Ecosystem Dossier, Valuation Thesis, Appendix A and RapidQuant.

Source layer	Used for
Books #1-#7	Continuity, evidence, archaeology, organisms, intelligence, governance and acquisition discipline.
Appendix A	Session metrics, confidence rules and missing-evidence discipline.
RapidQuant	Ancestor context, paper/live boundaries and replay DNA.
Valuation research PDFs	Frameworks only: market categories, risk, replacement cost and milestones.

EVIDENCE TRACE

Sources: ARC SE source corpus. Category and acquisition language is hypothetical; no fixed valuation, investment recommendation or buyer claim is made.
